# Philosophy

Our belief is that the world should be discovered using the roads Mother Nature originally created for everyone: water. Getting as many people as possible on the water who can all enhance their performance at any level using our products is what we aim for.

Discovery. The term we live and breathe at Jobe while developing new products.

A term that keeps us motivated every single day to be the best at what we do.

Discovering unique techniques in SUP development. Discovering your hidden talents.

Discovering ways to improve these talents with products that fit your personal need.

Innovate by discovery.

So take on the challenge, join us and re-discover your world.

Discover that your local lake can bring you quality time with your family.

Discover that the canal in your home town transforms into an urban jungle on your

SUP. Discover Yoga is not exclusively made for the mainland.

Discover Stand Up Paddleboarding is available everywhere for everybody.

## WE PRODUCE STUFF

Innovation is everywhere. It takes creativity and motivation to implement it into a working product. Transforming fresh ideas into products you can enhance your performance with is what we wake up for. We at Jobe are motivated to give you the best available. By controlling the full production process we guarantee our products qualify to our high standards. We specialize in your needs.

### BAMBOO SUP 11.6

The Bamboo 11.6 is our most family friendly board, anyone can ride it. This flat water cruiser is made from ultra durable yet lightweight EPS foam, so its substantial girth doesn't translate to weight at all. This board transitions from a single concave bottom at the tip to a double concave in the tail and in combination with the quite large flat area this provides tonnes of stability. Its featherweight status is also because of its bamboo layered construction.

### BAMBOO SUP 10.6

This all round SUP stands 10.6 ft tall and comes in at 32" X 5" wide. It's made from ultra durable, yet lightweight EPS foam, so its substantial girth doesn't translate to its weight at all. The bottomshape, outline and rockerline of this SUP makes it very versatile. You can catch your first waves or have a smooth ride on flat water. Its featherweight status is also because of its bamboo layered construction. Perfect for any beginner and enough challenge for advanced rider... Totally righteous.

## BAMBOO SUP 12.6

This new designed and lighter Bamboo SUP 12.6 ft is made with the highest grade construction, making it light as a feather and bullet fast. Its flat water design with performance outline and sharp displacement style nose that slices through the water is optimum for competitions, while its wider tail offers stability in choppy conditions. 1, 2, 3... START!

## BAMBOO WAVE SUP 9.0

Jobe's SUP lineup keeps expanding with ever increasing demand! Check out the all new wavesurf SUP... What a beauty, this one! Its single concave nose and double concave tail let you carve edge to edge nice and loose, while never sacrificing even an ounce of performance and speed. This board has a thruster fin setup which is perfect for all kinds of waves. THE SUP for intermediate to advanced riders!

## BAMBOO SUP 8.0

This multi functional SUP stands 8 ft tall and comes in at 30" X 4.5" wide. It's made from ultra durable, yet lightweight EPS foam, so its substantial girth doesn't translate to its weight at all. Its featherweight status is also because of its bamboo layered construction, making this one environmentally friendly ride too! This small and versatile (wave/flat water) board is super for the lighter who want it all.

## AERO SUP YOGA 10.6 PACKAGE

Ommm... Find your inner chakra with Jobe's brand new inflatable 10.6 ft Yoga SUP. This SUP is made wider than the other SUPs in the lineup and with its smooth, large and super comfy EVA pad it can accommodate ANY Yoga pose! The added bungee cord creates some storage room and the smart bungee storage strap on the side of the Yoga SUP keeps your paddle away while exercising. Its hook up rings allow you to attach to other Jobe Yoga SUPs! This way, you and your friends always float together, never apart.

ITEM#: 493015001

# Technical Specs Bindings

## **DUAL LACING**

Offers better support & fit because you can tighten and loosen the laces on the upper ankle and/or foot independently.

## **PERFORMANCE COMFORT INSOLE**

Soft ergonomic shaped foot bed that absorbs energy overload on the water and gives you the comfort you want.

## **ACHILLES KIDNEYS**

Locks your Achilles in place and helps keep your ankle positioned properly to ensure proper foot placement and support.

## **LACE BASE**

Handy side pocket(s) to firmly store the lace pull handles.

## **FOOT CLOUD LINER**

Three levels & blends of foam provide a precise performance, superior impact resistance & pro level support. With the custom like fit, this is the liner your feet are screaming for.

## **M6 SCREWS**

All 2015 Jobe bindings have the industry standard M6 Metric binding screws. With the M6 you'll have the strongest, tightest, and most controlled binding to board setup anywhere!

## **WEBBING LACE PULL LOOP**

Allows you to clinch down the laces to be completely locked in.

## **STRETCH N' FLEX PANEL**

The flexible panel on the heels and/or ankles allows for all the necessary extra movements you need during a ride once you're wrapped into a rigid binding.

## **HEELSYSTEM**

Our Heelsystem gives you the extra support needed to help eliminate heel lift and keep your movements as responsive as possible.

Beating my limits  
in style  
Tornado Shoreline

## NEOPRENE SURF BOOTIES 5MM

Our 5.0 mm booties have a thin sole that gives your optimal contact with your board (bare foot feel). Its split toe prevents your feet from turning in your booties while making that aggressive turn on the water. The parabolic cuffs keep the water out and the liquid seals offer the best protection against the cold water also!

The shaft strap prevents your feet from sliding forward.

*Size* | 3 - 4 - 5 - 6 - 7 - 8 - 9 - 10 - 11 - 12

ITEM#: 534715001

## H2O SHOES ADULT 3MM GBS

These 3.0 mm glued water shoes for adults come with thin soles that provide enough protection but offer perfect boardfeel. They're made for any water sports activity and will keep your feet comfortable and warm.

*Size* | 3 - 4 - 5 - 6 - 7 - 8 - 9 - 10 - 11 - 12

ITEM#: 534615001

## H2O SHOES ADULT 2MM FL

These 2.0 mm flatlock stitched water shoes for adults come with comfortable rigid soles and the water flows easily in and out of the shoes, so it keeps your feet cooled at all times. They're made for any water sports and will keep your feet perfectly protected.

*Size* | 3 - 4 - 5 - 6 - 7 - 8 - 9 - 10 - 11 - 12

ITEM#: 534615003

## H2O SHOES YOUTH

These 2.0 mm flatlock stitched water shoes for kids come with comfortable rigid soles and the water flows easily in and out of the shoes, so it keeps your feet cooled at all times. They're made for any water sports and will keep your kids' feet perfectly protected.

## Stitches & Seams

### X-tend force <sup>SEAMS</sup>

Better than ever this stretchy, waterproof, and super strong seam uses GBS construction combined with an extra fluid rubber tape on the outside for added durability.

### H2O Lock <sup>SEAMS</sup>

This is a combination between glued, blind-stitched and taped seams. First the seams are glued, after that they are blind stitched and finally taped on the critical areas. This technology allows the seams to block water entry on every level and keep you warm and dry at all times.

### Comfort <sup>LOCK</sup>

A comfortable stitch construction that is soft on bare skin and super strong.

# Meltdown THERMO

- 01 MELTDOWN THERMO
- 02 NEOPRENE SPONGE
- 03 NUCLEAR FLEX FABRIC

The Partial Meltdown thermo makes sure that you stay warm so you can keep going longer during cold weather conditions. Looking for even more warmth and comfort. The 100% Meltdown thermo is used for maximum flex, warmth and comfort.

100% MELTDOWN      PARTIAL MELTDOWN

- 01
- 02
- 03

# Water TEMPERATURES

**WINTER** These suits have two factors in mind: Warmth and Comfort. They are ideal for preseason sessions and when the days are getting shorter. Our most advanced suits are designed to keep your body warm so you can go and ride for as long as you want.

**FALL/SPRING** Wetsuits in this category are perfect when the temperature starts to rise in springtime or when temperatures start to drop, just after the summer season. Depending on your personal desires you can choose a GBS Suit (Glued version) or a Flatlock Suit.

**SUMMER** Great suits for the warmer days in season. Choose your style: Glued suits for maximum warmth, Flatlock versions that let in some cooling water or sleeveless suits that offer some protection and function.

# Nuclear FLEX

Our masterpiece. This is our most comfortable suit made from 100% Nuclear Flex neoprene and designed to give ultimate freedom of movement.

## Anti-Chill TECHNOLOGY

Our backup shield is strategically placed in front of the backzip to ensure water never enters your suit.

## Aqua Blocker PRINT

Our Aqua Blocker Print helps block water entry from the top of the wetsuit where needed most. Keep the heat; lose the water!

## Optional CUT

What if you like this suit but you would like to have it as a long sleeve model with short legs? No problem! With this suit you have the option to cut the leg just above the knee or just below without any damage. Check the marking on the inside of the suit and cut the marked line. Just remember, there's no going back!

# Technical Specs Wetsuits

## **NIP ZIP**

Our Nip Zip construction technology which is positioned above the chest panel makes the suit more flexible because there is less resistance from the zipper and helps keep your lower back free from dangling strings that can interfere with a crucial handlepass. The high quality YKK zipper can be opened completely for easy entry and rolled seals are used to block water at the shoulder panels. Open on both sides for an easy entry.

## **NIP ZIP+**

This Nip Zip + is pretty much our original Chest Zip on steroids. It utilizes the same high-quality YKK Front zipper construction as our original Chest Zip which is positioned above the chest panel that keeps you dry without restricting flexibility. Where it all changes is where we utilise a rolled seal in combination with an adjustable pull strap for the best water resistance money can buy. Opening on one side to reduce water from coming in.

## **NIPZIP + CROSS**

Our diagonal Nipzip construction technology which opens from one side makes the suit more flexible because there is less resistance from the zipper and helps keep your lower back free from dangling strings that can interfere with a crucial handlepass. The high quality YKK zipper can be opened completely for easy entry and rolled seals are used to block water from entering.

## **BACKZIPPER**

Easy entry backzipper. The original!

## **HYDROPHOBIC SKIN**

Hydrophobic Skin panels on the outside of the suit and jacket are strategically positioned to help maintain warmth and repel water.

## **GYMNAST CONSTRUCTION**

Gymnast Construction is as flexible as you can get! Large one-piece panels and minimum use of seams give the ultimate in flex and comfort.

## **ATOMIC FLEX**

Second runner up to the original; the Atomic Flex- still offers exceptional freedom of movement and warmth.

## **ATOMIC KNEE +**

This ultra-resistant and ultra-high endurance kneepad is designed to keep your wetsuit lasting for years. This technology is designed for extreme movement and flexibility with added padding from the original Atomic Knee.

## **DETACHABLE ANKLE STRAP**

Our detachable ankle strap helps make your wetsuit fit better at the ankles to prevent water entry no matter how bad the conditions get.

## **WDS**

This system uses perforated neoprene that allows water to flow effortlessly through the suit to help drain and dry quickly.

## **TALL SIZES**

We didn't forget about the giants! Our tall sizes are made to have a length suitable for taller participants.

## **DRY LOCK**

Dry Lock wrist cuffs are used to keep water out by providing a snug yet comfortable fit that contours strategically to repel water entry during impact. This is the creme of the crop.

## **AQUA BLOCKER PRINT**

Our Aqua Blocker Print helps block water entry from the top of the wetsuit where needed most. Keep the heat; lose the water!

## **BUBBLEGUM SEALS**

Are designed to prevent water entry by utilising double or single barriers which also help keep your suit in position.

## **ROLLED SEALS**

These rolled seals are tight to keep cold water out and warm water in.
